

Hi!

Thank you for choosing the CI/CD Integration Package!

To begin development, please send the following to luke@appsbyluke.com and schedule a kick-off meeting using [my calendar](#):

1. Repository Access

- GitHub repository details
- GitHub invitation for luke@appsbyluke.com
- Branch protection rules (if any)

Note: If you purchased this service along with an app development package, I will set up the repository as part of the development process.

2. Deployment Requirements

- Target environments (staging/production)
- Deployment frequency preferences
- Environment variables list

3. Testing Requirements

- Existing test suites
- Test coverage expectations
- Specific testing tools preferences

4. Security Scanning Preferences

- Required security checks
- Security notification preferences

Important Next Steps:

1. Send all the above requirements to luke@appsbyluke.com
2. Schedule a kick-off meeting using [my calendar](#)

Note: The delivery timeline will begin after the kick-off meeting is completed. This meeting is crucial for aligning expectations, clarifying requirements, and ensuring I have all necessary details to start.

If you purchased this service along with one of my app development packages (Core/Plus/Pro), I can cover both services in a single kick-off meeting.

Best regards,
Luke
